Community Action Cooling Updates: June 13–15

Community Action shared the following cooling plan updates for the current weather event.

Temperatures for Saturday, Sunday, and Monday are expected to exceed 90 degrees. For temperatures of 90–94 degrees, one outreach team is deployed to distribute cooling supplies such as water, electrolytes, sunscreen, tarps for shade, and other supplies. When temperatures reach 95 degrees, two outreach teams are deployed and cooling centers are activated. If temperatures reach 100 degrees, a third outreach team and additional staff are deployed.
