

Definitions

Prevention of **unsheltered homelessness**:

- Hospital discharge
- Disabilities
- Elderly
- Person about to be on the street
(not eviction prevention)

Emergency Shelter Standards

- Heat
- Electricity
- Close and lock door
- Roofing and walls
- Plumbing

Phase 2

Determine regional impact and needs

- Compliance with State of Emergency = provide 79 to 82 unsheltered homeless
- Need more information on how much and where the funds can be applied

Gather community priorities:

- Examples from participants of where funds could go:

- Split between agencies
- Fund already started projects to get them operated
- Support to larger rural areas which in return would support smaller communities
