Tay SPDAT

Backbone members looked at the Tay SPDAT and gave their feedback about the questions.

- Suggested that instead of having a "Refused" option for an answer, maybe putting a "Not Comfortable".
- For the first question "Where do you sleep most frequently?", adding "car" as an option.
- For question 4 (b), rephrasing the question to "Do you use resources like crisis service, etc."
- Possibly rename the Risk category to "Risk and Finances"
- For question 9, "risky" is too vague. They suggested putting the word "manipulation" or the question "Do you feel like you are being manipulated in any relationships in your life?"
- Section "C" title does not make much sense, Backbone suggested the title being "Socialization & Past Relationships."
- Question 11 and 12 could go under the Risk category.
- Question 15 "Is your current lack of stable housing…" Backbone members suggested adding personal eviction and substance use.
- Question 18 "If there was space available in a program that specifically assists people that live with HIV or AIDS, would that be of interest to you" Backbone suggested changing it to "would you benefit from a program that specifically…"

Some Backbone members took the TAY home to look at the other questions and make suggestions.

Meeting adjourned.
