FUNDING FOR ADDITIONAL EO NEEDS
Lozier explained the reallocation of funds, which will be vital to opening shelters. She stated that a lot has happened since the funds were first requested and these funds need to be spent by June 2025.
There was discussion on how to handle the ORS 190 Entity vote since only five individuals from the ORS 190 Entity were in attendance at the meeting and some would have conflicts. Compelling some individuals to vote or finding alternates was discussed.

HEALTH, HOUSING AND HOMELESS SERVICES

Lozier outlined the value of Alliance involvement with healthcare and the benefits of cross sector collaboration. Silverman-Méndez described how PacificSource caps their profits at 2% and then gives the remaining profit to the Willamette Health Council (WHC). WHC is investing in the MWVHA to improve coordination and collaboration in health and safety.

Alliance Action:

MOTION: By Councilor Varney**, SECONDED** by Pfeffer**, to APPROVE THE FOLLOWING SLATE OF MOTIONS:**

- Recommendation to make the Health and Safety Subcommittee, a committee.
- Health and Safety Committee charter
- Revisions to the MWVHA governance charter
- Appointment of Christina Bertschi and Josie Silverman-Méndez as co-chairs of the Health and Safety Committee.

Discussion: Flores Marin noticed a difference in various committee charters and recommended that standards for attendance and member removal in the Alliance and committee charters be coordinated and aligned. Clark supported putting that information and requirement into all of the charters, which would be an amendment to the Alliance charter. Flores Marin made a motion, which Pfeffer seconded, to edit all charters to include language that states that three consecutive unapproved absences would constitute a resignation from that body. Clark stated that a charter change would need to be noticed in an agenda and be considered at a future meeting.

MOTION: By Pfeffer**, SECONDED** by Flores Marin**, to APPROVE THE FOLLOWING SLATE OF MOTIONS WITH CHARTER AMENDMENTS FOR CONSISTENCY COMING BEFORE THE BOARD AT A FUTURE MEEITNG:**

- Recommendation to make the Health and Safety Subcommittee, a committee.
- Health and Safety Committee charter
- Revisions to the MWVHA governance charter
- Appointment of Christina Bertschi and Josie Silverman-Méndez as co-chairs of the Health and Safety Committee.

OPPOSED: None. **ABSTAINED:** Silverman-Méndez**.**

ORS 190 Action:

MOTION: By Councilor Varney, **SECONDED** by Mayor Clark, to **APPROVE THE LETTER OF AGREEMENT (LOA) WITH THE WILLAMETTE HEALTH COUNCIL TO ACCEPT FUNDS FOR THE HEALTH, HOUSING AND HOMELESSNESS SERVICES INITIATIVES.**

Discussion: None.

Motion carried.

IN FAVOR: Gordon, Varney, Clark, Lopez, Leno. **OPPOSED:** None. **ABSTAINED:** None.

Public Comment from Michael Livingston given during the meeting:

At the June 13th meeting, the members of the Board approved *without any inquiry or discussion* the Executive Director's proposal that meetings of the Performance and Evaluation Committee be suspended until October. The 3 reasons she provided to the Board did not justify, much less require, such action. LACK OF MEMBERSHIP – As demonstrated by the report of the committee's review of Community Action's ESG-funded Street Outreach project that I submitted to the Board in June and as further demonstrated by the committee's minutes and agendas drafted and approved since the resignation of the former chair, the committee had continued to function productively with its then-current membership. RE-EVALUATING COMMITTEE ROLES IN LIGHT OF HIRING NEW STAFF – The committee's continuing to discharge its responsibilities under the Charter would not have impeded and, in fact, would have assisted with that re-evaluation. INTERPERSONAL CONFLICT – Again, as demonstrated by the committee's recent work – including, but not limited to, the Street Outreach report – there is no dysfunctional conflict among committee members. There does exist, however, and has since February when the committee sought her assistance in gaining direct access to HMIS, an arbitrary and personal antipathy on the part of the Executive Director toward the committee and its work. That antipathy is reflected most recently in her decision NOT to discuss with the committee beforehand her proposal to pause its work and in her decision to cancel, again without explanation, the committee's June 4 meeting just a few days after we'd submitted to

her the draft minutes of the May 7 meeting and the draft agenda for June, which included a proposal for our next project – *i.e.,* a review of the CoC's Coordinated Entry System.

It is ironic that this Board claims to be committed to evidence-based policy decisions and at the same time votes to suspend the work of a valuable source of the evidence it needs and also appears to be ignoring the findings and recommendations set out in the Street Outreach report. In conclusion, I ask that a copy of this comment and my written comment dated July 6 be included in the minutes of this meeting. THANK YOU

Public Comment from Michael Livingston provided in writing July 6:

To Alliance Board members:

Please accept this email as public comment for inclusion with the materials for the July board meeting.

I consider it a positive development that the Executive Committee last week decided to take action on the whistleblower complaints you have all heard concerning the broken housing list. According to Chair Gordon, the action was prompted by Member White, who made this comment at the June meeting:

I don't want to open a can of worms, but as a non-voting new board member [unintelligible] we continue to receive correspondence from members [unintelligible] and I'm sure there's a lot going on behind the scenes, but as a board member I take this role seriously and feel like there needs to be some kind of transparent communication about what is happening there. So, I'm speaking as a Collaborative Committee Chair, I represent partner-providers, and am wondering–people have reached out to me asking me what I know– I know nothing. So I would love to understand a little bit more about how whistle-blower concerns are raised and what the process is there, and what the board–I'd like to see more communication and transparency.

Unfortunately, the action taken was *not* to direct that the broken housing list be fixed, but to authorize the director to seek *legal advice*, along with advice on something called "conduct violation process."

C. (12:30) CONDUCT VIOLATION PROCESS.....Chair Gordon
Discussion/Action/Update:

While introducing this intriguing topic, Chair Gordon, once again, found it an expedient use of his office to make slanderous statements about me and the whistleblower. This most recent abuse should be considered in the context of the chair's previous obscure, evasive and sometimes slanderous statements about us, described in detail in my written comments dated June 4 and 5, and set forth in pertinent part below for ease of reference.

In response to an email asking his reason for recommending our removal from the P&E Committee:

"The recommendation is mine. Committee members serve at the pleasure of the Board so it is only a recommendation at this point."

Jeremy Gordon, March 29, 2024

1

In response to a similar question from the Executive Committee:

"I do not think that they're [the whistleblower and myself]–their contributions to the Alliance are profound and immeasurable, but this is not the place for them to be, um, to be, um, I guess, um, productive, and I don't think we can have a productive committee with the current makeup."
Jeremy Gordon, April 2, 2024

In describing the resignations of two other P&E Committee members:
"Ami was very concerned, she didn't feel that she could maintain her expectations of professionalism and collaboration while serving on the committee, um, based on the committee dynamics and membership."
"[T]hey [Aryn's supervisor at Marion County], uh, kind of pointed to the child work that takes priority and because of some of these internal, um, dynamics..."
Jeremy Gordon, April 11, 2024

Please note that at no point so far has the chair invoked the Alliance's Code of Conduct, *even though* he was asked implicitly about this at the April Executive Committee meeting.

We now come to the Executive Committee meeting on July 2, when the chair, after referring to the whistleblower and myself by name, stated unequivocally, "In my view there was a Code of Conduct violation by each of them." He once again declined to share specifics, saying he "didn't know how to present this while respecting everyone's privacy." (An odd statement, considering that the Code of Conduct applies to certain prohibited acts by public officials for which there would be no legitimate expectation of privacy.) He told the committee that there was no process for removing committee members and asked permission to refer the matter to the lawyer, which they gave. It was not clear to me, however, and I suspect it was not clear to the committee members, what this legal advice is supposed to cover. Surely, it is not that difficult to conduct an unbiased inquiry, and then put the matter to a vote as contemplated by the Charter? If all that is needed is "a process", it is easy enough to adopt one of half a dozen that already exist. Contemplating all this after the meeting ended, I began to wonder if, after all that's happened, the chair was still planning to proceed with *our* removal. So I asked him, was he seeking legal advice solely

on "process", without regard to any specific case, or, was he intending to pursue the removal initiated in March? As of this writing, he has not responded.

The irony that the chair somehow thinks lawyers are an appropriate response to a request for more communication and transparency is rather profound. As I detailed in my previous written comments, the chair had made his initial decision to try and remove the whistleblower and me from the P&E Committee no later than February 27, 2024. The text of the email evincing that decision is below. By April his effort had failed for lack of board support. The chair even admitted as much to the Executive Committee in June when he said he could better achieve the removal by "pausing" the P&E Committee in preparation for redistribution of its HUD-required functions to staff. The board

agreed to "pause" the P&E Committee without discussion in June. Even Belshazzar could see that the committee's days are numbered.
One has to wonder why the chair persists, if he does, with this removal business. I do not know, but the case for malice could be made. He did not like it when the whistleblower and I advocated zealously for an HMIS license to allow the P&E Committee access to meaningful data–a recommendation that was due to come before the board again this month, but was mooted by the decision to pause the committee. He liked even less our repeatedly calling attention to the broken housing list, which, by the way, is still broken. But, as I said, I do not know. I do think it a shame in this economy and in the face of such extreme local need to be wasting any amount of money on lawyers, and maybe some of you do, too.
Please fix the broken housing list.

Hello everyone,
I apologize for my silence. As you likely know, I became incredibly ill recently and spent time in the hospital
(hence regrettably missing the City of Salem's work session). I hope that was communicated as I was in
contact with Gretchen Bennett. I was keeping track on my emails and prioritizing those who needed a quick
response-I did not consider Michael and Elliott's emails as priority.
3
As you may guess, I have been working with both Michael and Elliott for months on this topic. I have also
engaged with MWVCAA, our HUD TA (Homebase), and the Performance and Evaluation Committee
extensively. The long and the short is this: yes, our report is far from perfect. This is common across the
country for the same reasons it is in our region. As we transition to having more ownership of the day-to-day
operations with HMIS and CE, there are some practical fixes we can put in place. This is perhaps my highest
priority, and one that is very complex and nuanced. Shortly, I will be proposing staff positions to manage this
work. The HUD TA have been incredibly helpful in guiding what they could look like.
I have multiple reasons for why I will not recommend, nor seek out HMIS licenses for any committee
members. These reasons are the result of diligent research. I hoped to discuss this and offer/discuss
opportunities for other ways to obtain the information they need at the Feb 6 meeting but was told by

Michael I was not allowed to comment (something I know to be untrue but thought it would be counter-productive to de-rail the meeting).
Apologies that you have had to manage with this back-and-forth in my absence. I would support removal of
Michael and Elliott from the committee as this is one of multiple situations where they have deterred from
our essential effort to work together toward solutions, despite my intentional efforts.
This situation genuinely saddens me because we truly must work together in order to make progress, and I
doubt people who are experiencing displacement, homelessness and housing insecurity would see this as
productive.
Thank you and please let me know how else I can support. Ami, I will give you a ring today about the
upcoming P&E committee meeting. I think it may be wise to cancel, but let's talk about it.
Best,

Thank you, Elaine, and no reason to apologize at all. I hope you have been able to prioritze your health
above all else and please know that you can call on us for help.
As we discussed, I do plan to recommend to the Board that we remove both Elliot and Michael from the
committee. The Board will have questions, and I want to be sure I articulate my position in a fair and professional manner. Ami and I also discussed (and I know you have as well) that there may be a
4
path forward for the Board to be a bit more intentional about what an ideal makeup of the P&E committee might look like and the need to contextualize the imperfect and evolving data to the Board. I
feel so fortunate that you both are on the team to help us navigate this important need toward fulfilling
our mission.
I think we should address this issue in the March meeting as I expect Elliot and Michael to provide
testimony during public comment but we can discuss during the Exec Committee meeting.
thanks,

J

Public Comment from Elliott Lapinel given during the meeting:
At the executive committee last week Jeremy Gordon once again brought up my name making defamatory remarks without specifics. At this point, I consider this an abuse of office and I object to his unsubstantiated charges and slanderous statements. I have repeatedly asked Jeremy Gordon for his reason for removal, and he has repeatedly refused to give me a straight answer. I think what bothers him is my refusal to stop talking about the broken housing list. He says he's concerned about privacy, however, every communication I have had as a member of the committee has been on the record. There is no legitimate privacy issue here. Moreover, I resigned June 16th on the Alliance Facebook page and the housing list is still broken. Please see my comments in the minutes of the last meeting.
